

MWH  
Treatment  
Limited

Policy  
Statement

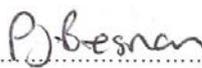

**MWH Treatment** is a leading environmental contractor that specialises in design and construction. Our sustainability objectives are to balance economic objectives with social and environmental stewardship. In order to meet these we shall engage the support of our supply chain.

The policy of the Company is to comply with the principles of BS 8903 'Principles and framework for procuring sustainably', in particular:

- Work collaboratively with our supply chain to provide whole life cost-effective solutions that are aligned to our sustainability objectives and that of our customers and other priority stakeholders.
- Assess our supply chain partners for safety, health and welfare, environment, commercial, quality, design and ethical sourcing practices.
- Work with the supply chain to promote awareness of sustainable procurement, manufacture and construction.
- Be fully committed to sourcing timber and timber products from certified sustainable sources.
- Regard environmental legislation throughout the supply chain as a minimum standard to be attained.
- Where possible, influence the design and selection of energy efficient materials and equipment which will have a reduced impact on the environment and will minimise the carbon footprint and risk of pollution.
- Ensure the amount of waste produced at each project is minimised by reducing use, re-using and sourcing recycled products.
- Pay our supply chain in accordance with agreed contract conditions.
- Identify opportunities to employ locally, use local suppliers and develop good relationships within the communities in which we operate.

Our management is responsible for ensuring that this statement is understood and implemented at all levels of the organisation.

**Our employees and supply chain partners shall play an active part in supporting MWH Treatment in implementing this policy.**

  
..... December 2018
