

**MWH  
Treatment  
Limited****Policy  
Statement**

**MWH Treatment** is a leading environmental contractor that specialises in design and construction. Our sustainability objectives are to balance economic objectives with social and environmental stewardship. In order to meet these and our Net Zero Carbon target we shall engage the support of our supply chain whilst seeking to work in a collaborative manner.

The policy of the Company is to comply with the principles of BS 8903 'Principles and framework for procuring sustainably'. We will:

- Work collaboratively with our supply chain to provide whole life cost-effective solutions that are aligned to our sustainability objectives and that of our customers and other priority stakeholders.
- Undertake supply chain mapping to identify risks such as: human rights and ethical issues (including modern slavery and "conflict minerals"); environmental impact; and carbon intensive operations.
- Assess our supply chain partners for safety, health and welfare, environment, commercial, quality, design, and ethical sourcing practices.
- Work with the supply chain to promote awareness of sustainable procurement, manufacture, and construction.
- Be fully committed to sourcing timber and timber products from appropriately certified sustainable sources.
- Regard environmental legislation throughout the supply chain as a minimum standard to be attained.
- Where possible, influence the design and selection of energy efficient materials and equipment which will have a reduced impact on the environment and will minimise the carbon footprint and risk of pollution.
- Ensure the amount of waste produced at each project is minimised by reducing use, re-using and sourcing recycled products.
- Pay our supply chain in accordance with agreed contract conditions.
- Encourage our supply chain to become members of the Supply Chain Sustainability School and signatories of the People Matter Charter.
- Promote equal pay and being a Real Living Wage employer.
- Identify opportunities to employ locally, use local suppliers and develop good relationships within the communities in which we operate, improving the social value of our projects.

Our management is responsible for ensuring that this statement is understood and implemented at all levels of the organisation.

**Our employees and supply chain partners shall play an active part in supporting MWH Treatment in implementing this policy.**
