

**MWH
Treatment
Limited****Policy
Statement**

Care of the environment is central to our business. MWH Treatment is committed to being a sustainable and responsible business. Our objective is to carry out our activities in such a manner as to minimise the effect on the environment whilst continuing to provide value to our clients. Our policy with regards to waste minimisation is to:

- Apply waste minimisation principles through the operation of an Integrated Management System covering all MWH Treatment's activities.
- Work with our supply chain and collaborate with clients to identify reuse and waste minimisation opportunities and contribute to achieving Net Zero Carbon.
- Increase awareness of waste management and minimisation through training provided to our employees, those working on our behalf and our supply chain.
- Complete Site Material and Waste Management Plans for all our construction projects to identify opportunities for reducing the waste produced through our activities, and report monthly on waste removals and destinations.
- Remove all waste in accordance with our statutory duties and processes.
- As far as practicable to minimise the environmental impact of plant, equipment and other physical assets for their entire life cycle and subsequent disposal.
- Set objectives and targets for continual improvement on waste minimisation.

The Company is committed to following the **Waste Hierarchy**. In order of priority it shall prevent, reduce, re-use, recycle and recover by:

- Prevention of producing waste through efficiencies and value engineering.
- Reducing waste by re-using existing structures thereby minimising the consumption of resources and maximising the use of recycled materials;
- Re-using waste produced on and off site in line with national legislation and local compliance obligations;
- Recycling where facilities are available;
- Recovering energy through incineration or anaerobic methods.

Disposal of waste to landfill is a last resort after all other options have been exhausted.

Management is responsible for ensuring that this policy is understood at all levels of the Company and that effective management systems are implemented.

Every employee shall play an active part in supporting MWH Treatment in implementing this policy so that we remain responsible for our actions.

.......... August 2023

Paul Bresnan (MWH Treatment Chief Executive)
Signed for and on behalf of MWH Treatment Limited
